Would you like to talk with local people in Japanese?

N-Friends Club

✿ We are welcoming new members. ✿

You might be thinking, for example...

- I would like to get acquainted with Japanese people in my neighborhood.
- It would be nice to have a Japanese acquaintance who would read letters that my child brings home from school together with me.
- I don't know much about Japanese schools. I wish somebody could tell me more.
- I moved to Nishitokyo City recently. I would like to know where the supermarkets and hospitals are.
- What kind of parks are there where I can go with my family on days off?
